ABOUT THE AMERICAN UNIVERSITY OF ROME

The AUR Logo

The American University of Rome's shield and logo is derived from the design of the distinctive paving pattern of Michelangelo's Piazza del Campidoglio on the Capitoline Hill in Rome. Its twelve-pointed geometry has a multitude of meanings, primary among them in this context the radiant role of Rome as the center of the world, the Caput Mundi, as the ancients fashioned it and as the Renaissance revived the concept. [James Ackerman, *The Architecture of Michelangelo* (1986), 166-70] Located prominently in the center the open book, a common university motif and symbol of knowledge, is inscribed with the University's year of founding, 1969 in Roman numerals. The book is encircled by AUR's motto "Inter Gentes Trans Orbem" (between people across the world) and in more detailed versions is shadowed by the architectural layout of the Colosseum. Together with the University's acronym the shield suggests AUR's place in Rome, a symbol of the millennial traditions of art, politics, science and culture that are the basis of the liberal education.

The Alumni of The American University of Rome

The Alumni of The American University of Rome are a worldwide network of professionals that all have AUR as their common denominator. The Office of Alumni Relations (AR Office) aims at maintaining and facilitating contact among Alumni, informing Alums about the University and its initiatives, organizing events to facilitate networking and relationships, showcasing the successes of Alumni and most importantly, connecting (and re-connecting them). With a firm belief that our strength is our community, the AR Office works with Development in the advancement of the University, both through fundraising as well as volunteering opportunities.

The AR Office also produces *Wolftracks Magazine*, a publication for Friends and Alumni of AUR that is published 3-4 times a year and is aimed at informing the community about Alumni and Development initiatives, as well as showcasing Alumni stories.

The Alumni Council

Consisting entirely of active alumni, the Council aims to support the university's continued growth and development, in addition to promoting alumni fellowship and philanthropy. The Alumni Council was officially launched in May 2018 with 10 members with varying backgrounds and of different graduation years.

Alumni Awards for Distinguished Service

Once a year, during the annual Alumni Reunion, outstanding Alumni are honored with awards named after the tree founders of AUR: David T. Colin, Giorgio A. Tesoro and Lisa Sergio. The David T. Colin Award for Distinguished Service is presented annually to an Alumnus/a who has shown continuing dedication to AUR and its community. The Giorgio A. Tesoro Award for Distinguished Service by an Italian Alumnus/a was launched in 2019 and will be presented annually to an Italian Alumnus/a who has excelled personally and professionally and who has advocated for cultural exchange. The Lisa Sergio Alumnae Award for Distinguished Service was launched in 2019 and will be presented annually to an Alumna who has excelled professionally and made an impact in their fields and beyond.

FACILITIES AND ACADEMIC RESOURCES

The University is located in a prestigious, residential area of Rome, on the crest of the Janiculum, Rome's highest hill, just a few minutes' walk from the historical Trastevere district.

A computer lab, a student lounge and administrative offices are located in a four-story villa. Adjacent to the villa, a five-story building houses classrooms, faculty offices, a science lab, a computer classroom, and tutoring centers. The terrace atop the building offers a breath-taking view of Rome. A separate two-story villa, adjacent to the main campus, houses the University library. Other campus facilities include an Auriana auditorium, the art studio, a multimedia lab and faculty and administrative offices, all within walking distance from each other.

The University is located close to the renowned American Academy in Rome, opposite the beautiful *Villa Sciarra* gardens and close to the stunning *Villa Doria Pamphili* park. The ancient Roman road of *Via Aurelia Antica*, the *Porta San Pancrazio* and the seventeenth century baroque fountain *Aqua Paola* are close by.

The neighborhood surrounding AUR offers a full range of amenities including restaurants, shops, cafes and an outdoor market. Several bus lines connect it to the historic center of Rome.

The American University of Rome boasts a committed and experienced faculty, numbering over 60 professors, most of whom hold advanced degrees in their respective fields. Most full-time faculty have doctorates or terminal degrees in their disciplines. At AUR, each professor works closely with students, participates in yearly on-campus lecture series and contributes to the wider AUR community.

Each class at AUR is led by one of our experienced faculty members and is small enough to ensure personal attention for each student. The average class size at AUR is 18, and this underlines the University's commitment to active learning and lively classroom discussion.

AUR offers degree students a variety of resources for academic and personal support. Over 100 courses are available every semester across the following areas: Archaeology, Classics, Art History, Business Administration, Communication, English Writing and Literature, Film and Digital Media, Fine Arts, International Relations, Italian Studies, the Humanities and Social Sciences, Travel and Tourism, as well as Mathematics and Science. Internships and independent study opportunities are also available for qualified students.

Evans Hall Library

The library offers a book and online collection tailored to the requirements of the degree programs offered by the University. The collection is carefully developed in collaboration with the faculty. The state-of-the-art online catalog allows users to search and locate books, articles, and a vast array of electronic resources efficiently. The library's physical holdings are supplemented by a number of electronic resources and sizeable libraries in Rome.

The University curriculum increasingly uses multimedia resources for the classroom. The library provides a collection of DVDs and videos.

Students can also enjoy a quiet study lounge for their work and research. The library facilities are complemented by a number of services including borrowing privileges, inter-library loans and a reserve collection. Our library staff is committed to high standards of library excellence and, to that end, offers a series of information literacy workshops and participates in foundational skills seminars every semester.

STUDENT LIFE

Student Life Office

The Student Life Office is the heart of student life at The American University of Rome. Our office strives to complement the academic mission of the University by providing and supporting opportunities for learning through extra-curricular activities. The activities and facilities of the Student Life Office promote students’ personal growth, leadership development, social responsibility, multicultural awareness and intellectual inquiry. The Student Life Office staff is committed to providing superb service in an engaging environment to entice student participation in formal and informal activities. The Student Life Office assists students with non-academic issues, encourages their participation in Italian culture and daily life and supports their social life both on and off campus. It plays an active role in bringing a wide variety of events and activities to students.

Health and Well-Being Resources

The American University of Rome is committed to promoting health and well-being, in a caring and confidential manner, for all AUR students. The following resources are available:

Health Services – The Student Handbook provides detailed information on obtaining the appropriate health care services in Italy. There is a doctor on campus, available by appointment and free of charge to students. The Student Life Office also maintains a list of English-speaking doctors and dentists that students may consult. In case of an emergency, an ambulance will take the student to the nearest emergency room and if hospitalization is necessary, patients will be placed in the hospital best equipped for the particular illness or injury. If a student requests to be placed in a private hospital clinic, appropriate arrangements can also be made. All students are required to pay in private hospitals and clinics and are issued receipts for insurance reimbursement.

Mandatory Health Insurance – All students, whether part time or full time, must be covered by health and hospitalization insurance. Upon arrival in Italy, non-European Union students with a visa and applying for a permesso di soggiorno (permit to stay for study purposes) are required to obtain a health insurance policy. This policy must comply with the requirements of the Republic of Italy for access to emergency public health care. The University will provide relevant information and assistance to students to secure a health insurance policy upon arrival at AUR. The Republic of Italy requires, at a minimum, a health insurance policy. If you do not have a valid, international health insurance policy that provides coverage during your stay in Italy you may purchase an Italian health insurance policy through Eduservice.org which is a third party provider external to AUR. For further information on visas and permits to stay, please see ‘**Admission Requirements**’ section of this catalog.

Psychological Counseling – The American University of Rome provides its students with free, confidential psychological services. A certified counselor gives routine, non-medical counseling to students by appointment. Detailed information on this service can be found in the Student Handbook and on appropriate bulletin boards on campus. A psychiatrist is also available by appointment and free of charge to students for prescribing and monitoring medications. Medications commonly used in the U.S. for ADHD/ADD treatment are not available in Italy. Students should hand carry enough medications for their entire stay together with their doctor’s prescription for the amount of medications being brought into Italy. Both mailing and receiving shipments of stimulants is illegal; shipping these medications from the U.S. to Italy can be charged as a criminal offense.

Safety and Security – Emergency phone numbers are located in the Student Handbook, posted in all AUR Student Housing apartments, and a card with all emergency numbers is provided to students upon arrival. If an emergency situation occurs it is critical that the appropriate emergency services be contacted first. In the event of a true emergency after-hours, AUR maintains an emergency number printed in the Student Handbook and answered by a University official.

In the event of student illness or injury, depending on gravity, the first action is to call emergency services (118) or proceed to the appropriate medical center. The staff on duty manning the emergency phone will be available if further assistance is needed. In such an event, an AUR staff member will advise the home university and/or the study abroad office. Within legal constraints, parents, guardians and the emergency contact will be contacted. Additional assistance is provided in the event of a medical evacuation. For non-emergency situations the Student Life Office can be consulted during normal business hours.

Money and Banking

Students should plan to have access to enough money for meals, beverages and snacks, trips, sight-seeing, restaurants, theaters, concerts, films, art galleries, souvenirs and local transportation. An estimated cost of attendance and living budget can be found on the website. ATM machines are widely available in Rome and most Italian cities. Money can be exchanged into Euros at Currency Exchange Offices in the city center. Many hotels, stores and restaurants accept credit cards. The University cannot cash or guarantee personal checks. Students can open a bank account in Italy only after receiving an official permit to stay.

Housing

Students may elect for The American University of Rome to arrange housing on their behalf or may choose to make their own housing arrangements in private apartments. The American University of Rome takes great pride in providing students with safe, comfortable living environments. All students opting for university housing are provided with fully furnished apartments in areas surrounding the campus for a “full immersion” cultural experience. Each apartment is typically shared by 5 or 6 students and includes the following amenities: PC computer, Wi-Fi, land-line phone, linens, towels, washing machine and a fully equipped kitchen.

Student Government

The American University of Rome Student Government (AURSG) is elected to represent the student body. It is a great way for students to contribute actively to the growth and development of the University. Student Government representatives participate in regular meetings with the administration and faculty and serve on the Curriculum, Library and Academic Fairness committees. Only students in good academic standing are eligible to hold office in the student government.

Student Conduct

The American University of Rome, as a university dedicated to promoting the intellectual and social growth of its students, obliges students to respect one another and behave in a decorous manner both inside and outside the University. The President of the University has the authority to discipline or to dismiss any student who is in violation of the laws of the Republic of Italy or whose conduct violates the rules and regulations of the University. Detailed information on the student code of conduct and other relevant policies, can be found in the Student Handbook.

Athletic Facilities

In an ongoing effort to provide opportunities to keep (or get!) fit, AUR has an agreement with a local gym (palestra) for students to use its facilities. For full time AUR degree-seeking and English Language Program students, AUR provides free gym membership. For all other students in attendance at AUR, Student Life has obtained a special discounted price for each academic semester;

interested students should pay and enroll directly at the gym.

Athletic Programs

The American University of Rome is a founding member of both the male and female Universities of Rome Soccer and Volleyball Leagues. For a full list of other sports activities offered at AUR, please see the AUR website - Student Life page.

EXCURSION OPPORTUNITIES

The American University of Rome, located in the heart of Italy and well-connected to the rest of Europe, supports a program of learning excursions as an essential activity of its academic life. Excursion destinations, costs and applicable academic credit, if any, vary each semester and current publications should be consulted for semester specific information. Excursions can be categorized as either ‘*Learning Italy Excursions*’ or ‘*Academic Program Excursions*’.

A. Learning Italy Excursions

This type of excursion, organized by the Student Life Office, is designed to introduce the newcomer to Italy to the people, art, history, language, landscape and culture of the Italian peninsula. Each excursion also caters for students already well acquainted with Italian language, culture and history by offering an in depth view and unique perspective associated with each destination and itinerary. These excursions are designed for students from any academic background. Excursions generally vary from one to three days.

Packaged Field Trips

Packaged Field Trips are Learning Italy Excursions for which the university arranges most aspects of the trip such as transport, lodgings, meals, museum entry fees, etc. AUR staff accompany the students on each excursion. Sample excursions are described below.

Tuscany Field Trip

This Student Life weekend trip will take you to the fabled towns of Tuscany: Pisa, Florence, Trequanda and Montecatini. From the world famous tower of Pisa, to the highly sophisticated medieval city of Florence, to the beautiful landscapes of Trequanda (our wine tasting destination). There are cathedrals, city palaces, intimate town squares and breathtaking landscape views. This is the best way for you to become the most “cultivated” traveler and lover of the best of Italy. The Student Life department provides you a chance to visit some of the historical and artistic treasures of these selected cities of Tuscany. There will also be leisure time for wandering, shopping, individual discovery and relaxation.

Capri, Mount Vesuvius - Sorrento and Pompeii Field Trip

A trip to the beautiful Isle of Capri with a tour of the excavations at Pompeii and a tour of Naples, as well as overnight stays in the town of Sorrento.

Capri: magnificent coastal walks, flower-strewn mountain slopes and, of course, the shimmering blue Mediterranean sea with its natural wonders which include the magical Blue Grotto and Faraglione.

Pompeii: buried under ash and pumice and lost for over 1500 years, this Roman city frozen in time was rediscovered 4 centuries ago. Today this UNESCO World Heritage site offers extraordinary insight into the life of a city at the height of the Roman Empire.

Sorrento: on the Amalfi coast overlooking the Bay of Naples, this cliffside town offers spectacular views across the bay. It is also the home of limoncello.

Naples: Italy's third-largest city is one of its oldest, most artistic and most appetizing. Naples' centro storico (historic centre) is a Unesco World Heritage Site. Naples is where pizza was invented, and since the 19th century, the Neapolitans have raised it to a fine art.

Assisi Day Trip

This Student Life day excursion will take you to the beautiful town of Assisi: it represents an ensemble of masterpieces of human creative genius, such as the Basilica of San Francesco, which have made it a fundamental reference for art history in Europe and in the world. The interchange of artistic and spiritual message of the Franciscan Order has significantly contributed to developments in art and architecture in the world. The Student Life Office provides you a chance to visit the main historical and artistic treasures of Assisi. There will also be leisure time for wandering, individual discovery and relaxation.

B. Academic Program Excursions

The Business Studies Program offers an array of field trips, some associated with specific courses, and others open to all students. The outings vary each semester, depending on the courses and the professors organizing them; recent efforts sure to be repeated include:

In addition, the Capstone cohort (seniors) takes a three-day field trip to explore the business and economic environment of a region of Italy, and enjoy teambuilding exercises.

Communication Day Trips

Different courses in the Program of Communication offer students the opportunity to visit a variety of media production sites and events in and around Rome, including the Cinecittà Film Studios, various newspapers such as La Repubblica, Il Messaggero, and Il Fatto Quotidiano, ANSA news agency, the Rome offices of the Associated Press, the RAI studios, the Journalism Festival in Perugia, TEDxRome, etc. Students get to meet with the professionals who manage and work at these various media outlets, and see what the job really entails.

International Relations and Global Politics Field Study Trips

The International Relations and Global Politics Program organizes Field Study Trips to expose students to: relevant countries facing specific challenges (e.g. Greece after the economic crisis);

significant institutions (e.g. the World Trade Organization in Geneva); and actors (e.g. OPEC in Vienna) to take students beyond class room lectures adding the case study component to the theoretical elements. The IR Program field trips change depending on the semester:

- **International Organizations (IOs):** students have the possibility to participate in a three day Field Study Trip to a city, within the European Union, where major International Organizations are hosted. Each year the city rotates in order to cover the most important ones – i.e. Brussels, Vienna, Geneva, and Paris. The purpose of the Field Trip is to expose students to the goals and aims of these Organizations, arrange meetings and interviews, both with people working in these institutions, and with those revising the impact and work of these institutions to give a complete picture of IOs' function and role.
- **Case Studies:** students have the possibility to participate in a three-day Field Study Trip to a city/region that has a particular relevance in current international relations, e.g. Nationalism, Separatism, Conflict resolution, International Intervention. In the last years the Spring Field Study Trips were organized in: Kosovo, Montenegro, Northern Ireland, the Basque Country, Catalonia and Greece.
- **Model United Nations:** During the Spring Semester students have the possibility to participate in the Model United Nations (MUN, i.e. a simulation of the UN work sessions), in a European city, practicing their negotiation skills. The MUN is the practical element of a theoretical course that gives students the theoretical aspects of public speaking and critical thinking.
- **Half/One day visit:** During the whole academic year, many courses take advantage of the numerous opportunities offered in the city (or close to it) to organize half/one day visits, e.g. to International Organization (e.g. the Food and Agricultural Organization, FAO, and the World Food Program, WFP); to Italian Institutions (e.g. Parliament); to non-governmental organizations.

Archaeology and Classics Field Study Trips

The Archaeology and Classics Program offers excursions in connection with courses in Archaeology and Classical Studies. Recent examples include trips to Athens, Herculaneum, Hadrian's Villa, Sperlonga, Cerveteri, Tarquinia and Berlin.

Art History Field Study Trips

The Art History Program organizes day trips and weekend excursions in connection with Art History courses. Trips to Florence and Venice are usually incorporated as a part of upper level Renaissance art classes. Trips to other Italian cities and sites (such as Milan, Naples, Ravenna, Sicily, etc.) constitute essential part of many lower and upper level Art History courses. Occasionally, the Program also organizes to other major European cities and art centers for the purposes of visiting relevant contemporary exhibitions or museum collections.

SPECIAL PROGRAMS

The American University of Rome offers various credit and non-credit programs to meet the educational needs of the local and international community. Members of the community are welcome to enroll in the University's regular and special courses. All courses (except Italian language courses and some advanced Italian literature and culture courses) are conducted in English.

Summer Sessions

During AUR summer sessions students typically complete between six and twelve credits towards their undergraduate degrees. The AUR Summer sessions are open to degree and study abroad students. For more information please visit our website: www.aur.edu.

Career and Internship Office

The American University of Rome supports students in bridging the world of academia and the world of work through the AUR Career and Internship Office. The university maintains a wide network of partner organizations, public and private, where AUR students in their junior or senior year can do for-credit internships during the semester or summer. The same is true for second semester study abroad students. During the fall and spring semesters, an internship course is offered which addresses a series of career skills. The office provides students with one-on-one attention and advice as they craft their CVs and research their fields of interest. The AUR careers and internships community portal is regularly updated with full and part-time job opportunities as well as information about available internships. The office provides resources such as student internship portfolios to consult, handouts regarding skills, values and sample CVs, as well as books on career related topics.

Internship Program

The American University in Rome has an active internship program both in Rome and in other cities and countries. The idea behind an internship is to provide students with targeted work experience so as not to have to enter the work force upon graduation with no related skills in their chosen field. It also affords the chance to evaluate different career paths in depth and in person. Students are given a chance to prove their initiative, reliability and responsibility all the while putting into practice concepts that they have learned in their courses. Internships are a joint opportunity for students to acquire new skills and for companies to benefit from the students' diverse skill sets and cutting-edge knowledge. Students carry out structured work experiences in companies or organizations which they believe will enhance their academic, professional and personal development. To receive academic credit, students will take an internship course (INT 450) which further prepares them for the world of work via a series of workshops and a final academic assignment. Through interactive exercises students learn about researching jobs, networking, interviewing skills and CV preparation. These exercises give students a chance to hone their skills and receive input. Requirements for site placements are 135 hours over the course of 14 weeks in a format to be decided by both the student and the site supervisor. Internships may be carried out either in the fall, spring, j-term or summer semester. To apply for an internship, applicants must be enrolled as full-time AUR degree seeking students or as second semester study abroad students in good academic standing (GPA 2.50 or above) and have Junior or Senior standing. A formal agreement between AUR and the internship site organization is required before a placement can begin. A student may complete a maximum of two internships for academic credit.

Students on federal aid are strongly advised to choose an internship outside the U.S. as U.S.-based internships that may jeopardize federal aid eligibility. Contact the Associate Director of Financial Aid (financialaid@aur.edu)

Academic Support Services

The following academic support services are available to students at AUR:

- The **Math Helpdesk** is organized to assist students enrolled in mathematics courses. Drop-in sessions are held throughout the semester.

Meetings with students are on an individual basis to address specific writing issues and problems such as developing a strong thesis, collecting ideas, developing thoughts, organizing paragraphs, incorporating secondary sources, revising, and editing. In addition, students applying must get approval for courses to be taken prior to the semester abroad from their program chair to ensure the proper alignment with GE and major program requirements. All AAICU institutions have academic programs based on the American liberal arts model, and transferability of credits between AAICU institutions is guaranteed.

The AAICU-DEEP provides students with opportunities for international and intercultural perspectives through student exchanges, resulting in the awareness of the economic, social and cultural issues in the regions of the world which they are located. Students can apply to the university they wish to study, as a visiting student or study abroad student.

Course Sequences and Pre-requisites

Degree students can only enroll in courses appropriate to their level of academic standing and to their major and minor areas of studies. If a course has pre-requisites, indicated in this catalog, students must ensure they have all been met prior to registration, with the assistance of their advisor. In the case that a student has not formally met the pre-requisite(s), but the course indicates students can ask permission to the instructors, s/he should send a petition to the Registrar's Office.

Registration

Incoming First-Time-in-College students, as well as Transfer students, will be pre-registered for required courses according to their declared majors before the semester starts. During Orientation Week, incoming students will meet with their Academic advisors to complete and finalize their schedule.

Degree-seeking students must register online (through MyAUR) for the following semester during the registration period as indicated on the Academic Calendar. Students who register late will be charged a Late Registration Fee of 105 Euros. Students need to request approval for their course registration from their academic advisor. Registration is on a first-come, first-served basis. Spaces in courses are limited. Students have the option of wait-listing themselves online if a course is full. If and when spots open up, wait-listed students will be contacted by the Registrar's Office directly.

Degree-seeking students on financial hold will not be able to register online, but should use a paper registration form, to be approved by their advisor and returned to the Registrar's Office. The student will be registered once the hold has been lifted and according to class availability at that time.

Online Add/Drop is available to students during the first week of a regular semester and during the first day of classes of a summer session. Students need to receive approval from their academic advisor for any added class.

After the Add/Drop period, no courses may be added and withdraw penalties will apply.

Classes missed during the Add/Drop period will not be considered as "Tolerated absences", unless the course has been added during that period.

The University reserves the right to alter the course schedules, should the need arise. This could include cancellation of classes due to insufficient enrollment, change of scheduled course time, instructor or classroom.

Academic Advising

The academic advising program of The American University of Rome helps students define and clarify their career and educational goals and develop academic strategies to reach them.

It is the responsibility of both the student and his/her academic advisor to participate in the advising process equally. The academic advisor serves as a resource for course/career planning and academic progress review and as an agent of referral to other administration members as necessary. After consultation with his/her academic advisor, the student is ultimately responsible for choosing and implementing his/her academic program.

Learning Accommodations

The American University of Rome does not discriminate based on differing abilities and is committed to providing all students with a high quality educational experience.

While not bound by the "Americans with Disabilities Act" and other legislation, the American University of Rome still makes every attempt to provide all reasonable accommodations.

Possible accommodations may include:

- Extended time for papers or projects

- Time-and-a-half for testing
- Testing with limited distractions
- Tape lectures (with appropriate permission)
- Use of a computer for essay exams

In order to request learning accommodations, the student needs to submit medical or psychological documentation, specifying detailed and reasonable accommodation(s), two weeks prior to arrival. Please note all documentation must be valid and current (within the past 4 years) and issued by a licensed specialist.

After all required documentation has been received, the Dean's Office will consult with faculty and staff to determine available accommodations.

Attendance Policy

In keeping with AUR's mission to prepare students to live and work across cultures, the University places a high value on classroom experience. As a result attendance is expected in all classes and attendance records are maintained. The University's attendance policy is as follows:

1.0. Minimum Attendance Requirement: Students must attend a minimum of 70% of a course in order to be eligible for a passing grade.

1.1. Automatically Accepted Absences

Students will not be penalized for one absence from classes meeting once a week;

Students will not be penalized for three absences from classes meeting twice a week;

Students will not be penalized for four absences from classes meeting more than twice a week, as in the case of some intensive courses.

1.2. If further absences are recorded, grade penalties will be applied according to the instructor's specific attendance policy, as stated in the syllabus, and following the institutional parameters given in the Note* below.

1.2.1. If the instructor does not specify an attendance policy, there will be no grade penalty other than that attached to the minimum attendance requirement, and any penalized absences recorded above the basic 70% attendance requirement for the course will be invalidated.

1.3. During Summer sessions where courses are taught more intensively over a shorter period the following applies:

- Students will not be penalized for two absences from class.

2.0. Tolerated Absences

Certain categories of absence will not be penalized but will be counted as an absence (for a 3-credit course meeting twice a week). These absences are:

- The Model United Nations (MUN)
- Permit to Stay
- SG's "Ambassador Program" (Student Government initiative)
- Religious Holidays

The American University of Rome makes all reasonable efforts to accommodate students who must be absent from classes to observe religious holidays. (Please refer to the Dean's Office list of accepted absences for religious holidays). Not attending a class due to the observance of a religious holiday will not be penalized but will be counted as an absence. Students who will need to miss class in order to observe religious holidays must notify their instructors by the end of the Add/Drop period (first week of classes), and must make prior arrangements with their instructors to make up any work missed.

The list does NOT include academic field trips because these (including arrangements for travel) must not overlap with other classes.

3.0. Cases of prolonged absences caused by an emergency or a medical condition may require students to withdraw from some or all of their courses. Under such circumstances students should first consult their academic advisors.

*Note: No instructor may penalize a student more than one-third of a letter grade for each absence beyond the tolerated limit (e.g. from A- to B+).

Grade Point Average

A student's grade point average (GPA) is computed by multiplying the quality points achieved by the number of credits for each course. The result is then divided by the total number of credit hours taken. The Cumulative or Career Total Grade Point Average (CGPA) is the grade point average for all credit hours taken at the University and at approved study abroad programs. The GPA and CGPA are calculated by truncating after the second digit after the decimal point. Transfer credits have no effect on the CGPA at The American University of Rome.

Final Examinations

Final exams are scheduled during the day(s) indicated on the Academic Calendar. Students can view the course Final Exam day and time on their schedule online, as of the first day of classes.

Students must remain available until all exam and test obligations have been fulfilled. Travel plans are not an acceptable reason to miss examinations.

A student may defer a final examination for only three petitionable reasons:

1. documented medical grounds;
2. documented international competition with a national team or other activities with equivalent significance, or;
3. documented compassionate grounds.

Requests for rescheduled examinations are made in writing to the course instructor. A request for a rescheduled examination must be made 15 days prior to the final exam. Consideration for these requests is a privilege, not a right.

If a student is absent during the final examination for medical or compassionate reasons, he/she may be granted a deferred examination. Applications for a deferred examination after the examination has been missed, must be filed in writing with the course instructor within 48 hours of the date of the missed examination. A medical certificate of otherwise appropriate documentation may be required.

Grades

Grades are posted on a secure area of the University's official website and are mailed to AUR degree students only upon written request. Grades are mailed to the various study abroad programs. Grades computed in the (GPA) reflect the following grade equivalents:

GRADE		GPA	
A	Excellent	4.00	94 – 100 points
A-		3.70	90 – 93.99 pts
B+	Very Good	3.30	87 – 89.99
B	Good	3.00	83 – 86.99
B-		2.70	80 – 82.99
C+		2.30	77 – 79.99
C	Satisfactory	2.00	73 – 76.99
C-	Less than Satisfactory	1.70	70 – 72.99
D	Poor	1.00	60 – 69.99
F	Failing	0.00	59.99 – 0
WU	Unofficial withdrawal counts as an F	0.00	

P Applicable to development courses 0.00

Grades not computed into the grade point average are:

W	Withdrawal
AUDIT (AU)	Only possible when the student registers for a course at the beginning of the semester as an audit student
I	Incomplete work must be completed within the following semester. Failure to do so results in automatically converting the I grade to the default grade, which is then computed into the grade point average
P	Pass grade is applicable to courses as indicated in the catalog.
WIP	Work in progress

Grade Appeals

1. Students dissatisfied with their final grade in a course should contact the instructor of the course as soon as possible.
2. Only after having met with the professor, can students request to see the Director of the Program in which the course in question was offered. If students and Program Directors cannot agree about grades, students may request with the Dean an appeal to the Committee on Academic Fairness, no later than 30 days after the grade has been issued. The Academic Fairness Committee will not make sensitive academic judgments or delve into the academic content of papers, quizzes, or exams, etc., but rather it will determine the fairness and accuracy of the grading process and assessment tools. It will look for human or computer errors in calculation, or basic systemic errors that could be construed as unfair or partial to one student or another. The decision of the committee is final, therefore grades may go up or down depending on the judgment of the four members of the committee.
3. Students are responsible for laying out the grounds for their appeals in writing: either instructors violated institutional requirements or the criteria for grading laid out in their syllabi. Students will supply to the committee graded work from the course in their possession.
4. When an Academic Fairness appeal is made the Dean will determine if there exists a prima facie case for an appeal. If it is determined that no such case exists the Dean will write to the student informing him or her of the decision and the reasons motivating that decision. The decision of the Dean is final. If it is determined that a prima facie case for an appeal exists, the Dean will inform the student of this and convene the Academic Fairness Committee (see paragraph above). The Dean will supply the instructor's written explanations of how the student's final grade was reached at and any student work in the instructor's possession. The Registrar will supply the instructor's reports of final grades in the course and student's final examination in the course, and the Dean will supply course syllabi and convene the Academic Fairness Committee.
5. The Academic Fairness Committee, composed of two student representatives appointed by the Student Government and two Faculty members appointed by the Dean, provides a court of appeal for students who believe they have been unfairly treated. The committee is chaired by the Dean or the Dean's designee, who is ex officio and non-voting except in the event of a tie. If it upholds a student's appeal, the Dean will change the student's grade to reflect the deliberations of the committee; if the appeal is denied, there is no further appeal.

When students are no longer enrolled at AUR

The Dean will consult with instructors and send students no longer enrolled at AUR explanations

of how their final grades were reached. If instructors and Program Directors cannot agree about grades, students may request with the Dean an appeal to the Committee on Academic Fairness. (see paragraphs 4. and 5.)

When instructors are no longer teaching at AUR

Program Directors will consult with instructors by email or telephone and explain to students, in person or by mail, how their final grades were reached. If instructors and Program Directors cannot agree about grades, students may request with the Dean an appeal to the Committee on Academic Fairness. (see paragraphs 4. and 5.)

Course Repetition

A student will normally be allowed to repeat a course if the original grade was an F, D, C-, WU, or W. While the student will earn credit for the course only once, grades for all attempts remain on the transcript and are marked by an asterisk next to the grade. Instead an 'R' to the right of the grade identifies the higher repeated grade that is computed in the grade point average. Both the original course and the repetition of the course will be considered credit hours attempted for the purpose of determining successful course completion percentages.

Incomplete Grade Policy

The grade of Incomplete (I) may be given to a student who is unable to complete a course due to extenuating circumstances. This grade is given at the discretion of the instructor and only if the student is eligible for a passing grade in the course. An Incomplete Contract must be completed for an Incomplete grade to be given. The Incomplete Contract must be signed by both the instructor and the student. It must detail the work to be submitted, the deadline by which it must be submitted and the grade which should be substituted for the Incomplete should the student not fulfill the contract. The submission deadline should not extend beyond the last day of the following semester.

On completion of the contract, the Incomplete grade must be replaced through the completion of a Change of Grade form by the instructor. If no Change of Grade form is received, the default grade from the incomplete contract will become the final grade. An Incomplete grade will not be recognized without proper documentation. An Incomplete grade cannot be replaced by a W. An Incomplete may not stand as a permanent grade.

Course Withdrawal (W and WU)

Students who wish to change their schedule by dropping a course within the published time parameters need to consult with their academic advisor before dropping the course online. After the add & drop period ends, in order to withdraw from a course, a student should consult their academic advisor first and then complete a drop form to be submitted to the Registrar's office. Students who withdraw from a course prior to its completion will be assigned the grade of W if they withdraw before the withdrawal deadline (as specified in the Academic Calendar) or WU if they withdraw after. Exceptions may be made after withdrawal deadlines have expired only by completing a 'Petition to Drop Courses After the Deadline' form and by receiving permission from the Dean and the Registrar. Medical withdrawals will be assigned a grade of W. A change of grade may be allowed for a medical withdrawal. The grade 'W' is not calculated into the CGPA. The grade 'WU' is considered an F and is calculated into the CGPA.

Both the W and WU will be considered credits attempted for which the student has incurred a financial obligation for the semester (see also Refund policy) and will affect the successful course completion percentage. Any withdrawal after the withdrawal deadline as specified in the academic calendar will be considered an unofficial withdrawal (WU).

Only in the case of 1-credit academic fieldtrip courses, students are allowed to drop the course, without a 'W' recorded, up until a week before departure. If students choose to withdraw from

the 1-credit course after this point, they may do so with a W recorded, as long as they submit their withdrawal request before the first day of final exams. Any withdrawal or non-completion after the first day of final exams will be recorded as an unofficial withdrawal (WU).

Dean's List

Each semester full time degree seeking students who have completed the previous semester's work with a grade point average of 3.50 or above on a 4.00 scale are placed on the Dean's List. No grades of D, F, I, or WU are allowed in any course completed or attempted. Students must complete 15 credits or more in the semester. Inclusion on the Dean's List is recorded on the official transcript. Students on the Dean's List are permitted to enroll for an extra three credits course for the following semester at no additional charge.

Standards of Satisfactory Academic Progress

All students must meet the following minimum standards of academic achievement and successful course completion to remain enrolled at the University. The student's progress is monitored each Fall and Spring semester and evaluated at the required evaluation points on the satisfactory progress table. Non-credit courses (e.g., Developmental English) are not counted as credits attempted, earned or taken and, therefore, do not affect the grade point average. Thus these courses do not influence the standards of satisfactory progress. Change of major does not affect the standards of satisfactory progress. Pursuit of an additional degree (e.g., pursuit of a Bachelor of Arts degree following completion of an Associate of Arts degree) does not affect the standards of satisfactory progress.

Maximum Time Frame and Successful Course Completion

The maximum time in which a student is permitted to complete a degree is equal to the period of time during which the student attempts 1.5 times the number of credit hours normally required to complete the program (180 attempted credits). In no case can the student exceed 1.5 times the standard time frame and receive the original academic credential for which he or she enrolled. Part time students should consult the Registrar for further information on the appropriate satisfactory progress standards.

Satisfactory Progress Table

Minimum Required Evaluation Point	CGPA	Minimum Successful Course Completion % of Credit Hours Attempted
25% of maximum time frame (45 credits attempted)	1.50	55% (with 45 credits attempted, 25 credits must be earned)
50% of maximum time frame (90 credits attempted)	1.75	60% (with 90 credits attempted, 54 credits must be earned)
100% of maximum time frame (180 credits attempted)	2.00	
End of First Academic Year (Two semesters as a full time student or at least 30 earned credits)	1.50	55% (with 45 credits attempted, 25 credits must be earned)
End of Second Academic Year (Four semesters as a full time student or at least 60 earned credits)	2.00	60% (with 90 credits attempted, 54 credits must be earned)

Each Subsequent Academic Year (Each subsequent two semesters as a full time student or each subsequent 30 earned credits)	2.00	67% (with 180 credits attempted, 120 credits must be earned)
---	------	--

Minimum Academic Achievement: Probation and Suspension

The table above defines two criteria (CGPA and per cent of attempted credits earned); both must be satisfied to avoid suspension following a semester on probation. Students who fail to maintain a GPA of 2.00 for any fall or spring semester will be placed on probation. The student may not register for more than 12 credits per semester while on probation. At the end of that probationary period, if the academic record is not in compliance with the standards of Satisfactory Progress, the student will be suspended for a minimum of one semester. Suspended students must request to be readmitted to the university (see relevant section below). The student is considered to be maintaining satisfactory progress while on probation. However, the student on probation may not hold office in student organizations nor participate in the student assistantship or resident assistant programs.

Transfer students shall have their status determined for purposes of satisfactory academic progress measurement by including the number of transfer credits accepted toward the degree in both attempted credits and earned credits.

Attention is called to the three sections immediately following, which specify rights of appeal and related regulations.

Mitigating Circumstances

The Dean may waive the academic progress standards for circumstances of poor health, family crisis or other significant occurrences outside the control of the student. These circumstances must be documented by the student to demonstrate that they have had an adverse impact on the student's performance. Students who receive a waiver of the standards of satisfactory progress will be on probation. All graduation requirements must be met.

Appeal of Satisfactory Academic Progress Standard

Should a student disagree with the application of these satisfactory progress standards, he or she must first discuss the problem with the Dean. If still dissatisfied, the student may then appeal to the Academic Fairness Committee (see relevant section above).

Reinstatement as a Regular Student

Students who wish to be readmitted after being suspended due to failure to maintain the academic minimums must reapply for admission but not before a full fall or spring semester has passed from the time of suspension. If the student is readmitted, he or she must retake courses previously failed as soon as these courses are offered or demonstrate the skills applicable to the student's academic objectives. If readmitted, the student will be placed on probation for a period of one semester. At the end of the probation period, if the student's academic record is not in compliance with the standards of satisfactory progress, the readmitted student will be dismissed from the university.

Academic Integrity

Integrity is fundamental to the academic enterprise. It is violated by such acts as borrowing or purchasing assignments, including but not limited to term papers, essays, and reports; lending to or producing assignments for others (either for or without payment); using concealed notes or crib sheets during examinations; copying the work of others and submitting it as one's own; and otherwise misappropriating the knowledge of others. Such acts are both dishonest and deceptive if the work submitted to instructors is not the work of the person whose name it bears.

The sources from which one derives one's ideas, statements, terms, and facts, including internet sources, must be fully and specifically acknowledged in the appropriate form. Failure to do so, in-

tionally or unintentionally, constitutes plagiarism. An act of plagiarism will be reported to the Registrar's office and noted in the student's file. After three incidents of plagiarism, the student will be suspended from the University for at least one semester.

Intentional Plagiarism

Submitting a paper written by someone else - a paper written by another student, a purchased paper, or a paper downloaded from the internet - can only be construed as intentional plagiarism. So, too, is writing a paper for someone else. The evidence is non-debatable.

Such instances will be reported to the Dean, who will require the student (or students) involved to sign the following statement: "Submitting a paper written by someone else as my own work (or writing a paper for someone else) is dishonest. I understand that repeating this offense will result in my suspension or permanent expulsion from AUR." The instance will also be entered on the student's record. A second instance will result in suspension or permanent expulsion from AUR. The instructor will have the following options; failing the student (or students) involved; averaging the zero grade of the plagiarized paper into the student's final grade; or averaging the zero grade of the plagiarized paper into the student's final grade and requiring another paper in its place.

Self-Plagiarism

Unless specifically agreed in advance with the course instructor, each piece of work submitted for a grade should be original and should not have been submitted before. If a student wishes to develop ideas from a previous paper, he or she is advised to summarize the previous work and reference it as with any other citation.

The Improper Use of Sources

Using sources improperly or failing to acknowledge them fully and specifically may be construed as intentional or unintentional plagiarism. In such instances the instructor has latitude in determining the seriousness of the offense and the penalty as follows: failing the student in the course; averaging the zero grade of the plagiarized paper into the student's final grade; averaging the zero grade of the plagiarized paper into the student's final grade and requiring another paper in its place; or accepting another paper in place of the plagiarized paper and dropping the zero grade. The student will also be required to attend the Writing Center for instruction in the proper use of sources.

Such instances will also be reported to the Dean and entered on the student's record or, for a study-abroad student, reported to the home institution. A second instance may result in suspension or permanent expulsion from AUR; a third instance will result in suspension or permanent expulsion from AUR.

Cheating on Examinations

Cheating on examinations in any form whatsoever — using concealed notes or crib sheets, getting help from another student, or giving help to another student — is a serious offense against academic honesty. The instructor has latitude in determining the grade on the examination and the grade for the course: the grade for the examination may be zero, the grade for the course F.

Such instances will be reported to the Dean, who will require the student (or students) involved to sign the following statement: "Cheating on an examination (or helping someone else to cheat on an examination) is dishonest. I understand that repeating this offense will result in my suspension or permanent expulsion from AUR." The instance will also be entered on the student's record or, for a study-abroad student, reported to the home institution. A second instance will result in suspension or permanent expulsion from AUR.

In all these instances students have the option of an appeal to the Academic Fairness Committee.

Classroom Behavior

It is the professor's ultimate responsibility to establish behavioral tone in the classroom. Guidelines on attendance, class participation, tardiness, etc. are to be outlined in the course syllabus or clearly stated by the professor in class. It is incumbent upon the student to honor these guidelines. While the professor should engage in a policy of positive reinforcement in his or her teaching practices, students must maintain a sense of decorum in the classroom conducive to a high standard of education. AUR does not permit, for example, the use of cell phones during class. All phones must be turned off before entering the room. Students are also encouraged to take care of all personal needs outside of the classroom. Leaving and re-entering class during lectures is not allowed. Disruptions of any sort for any reason other than an emergency are considered a serious violation of classroom decorum. Repeated disturbances of this kind may have academic and disciplinary consequences.

Cyber bullying

AUR has a zero-tolerance policy regarding cyber bullying. Cyber bullying is defined by the U.S. National Crime Prevention Council as, "the intentional and aggressive process of using the Internet, cell phones or other devices to send or post text or images intended to hurt or embarrass another person." The very nature of education depends upon the free exchange of ideas, and the university classroom is a safe space where ideas are explored and debated in a respectful and thoughtful way. Because cyber bullying attacks the fundamental tenets of intellectual inquiry, any student found guilty of cyber bullying another student or a professor will be immediately suspended from the university.

Study Abroad Opportunities for AUR Students

With the approval of the academic advisor, AUR degree students may apply to participate in study abroad programs offered at other institutions. Courses taken at other universities must be pre-approved by the academic advisor and a Transfer Credit Permit Form must be completed and submitted to the Registrar's Office. This also applies to J-Term and Summer sessions (see also AUR Abroad). Students who receive federal aid are strongly advised to choose a program outside of the US that is authorized to administer Title IV funds. Failure to do so may make the students ineligible for federal aid when they return to AUR. Contact the Associate Director of Financial Aid (financialaid@aur.edu).

Transfer credits for current degree-seeking students

If a current student wishes to take a course outside of The American University of Rome, the student needs to complete a "Transfer credit pre-approval form" or an "Online course approval form". This form is to be approved by his/her academic advisor and submitted to the Registrar's office, prior to enrolling in the outside course. Attached to the form, the student should also submit an official course description or course syllabus for each course.

The rules and conditions for the transfer of academic credits are outlined under the "Transfer Students" section of the Admission Requirements. In general, credit from academic courses taken at institutions of higher education accredited by an American regional accrediting association, as well as from nationally recognized institutions of higher education outside of the U.S., will transfer, provided that the course is completed with at least a grade of "C" and that the course is similar in content, scope and level to work offered at The American University of Rome.

A student is not permitted to take an online course if the course is offered at The American University of Rome during a given semester and the final semester must be completed in residence at AUR. Students are not allowed to take online courses if they are receiving US Federal Financial aid, or will be doing so in the future. All students receiving US Federal Financial Aid are advised to check with AUR's Financial Aid office before enrolling in courses at another institution.

Upon completion of the course(s), the student must submit an official sealed transcript to the Registrar for posting to his/her academic record. Transfer credit grades are not included in the student's grade point average.

Leave of Absence

AUR degree students in good financial standing may request a leave of absence by completing the appropriate form with the Registrar. A leave of absence can be for no more than one year and allows for automatic readmission under the same academic program. A leave of absence deposit fee of 120 Euro is required and will be credited towards tuition payment once the student returns, otherwise it is non-refundable.

A student who fails to file a signed form and pay the required fee by the last day of Add/Drop and does not return by the start of classes will be considered to have withdrawn from the University. Withdrawn students who should decide to return must reapply for admission following the requirements at the time of application.

Degree-seeking students who need to take a Leave of Absence during the semester, due to extenuating circumstances, must submit a request to the Registrar in writing. Only students in good financial standing (without a financial hold) can request a Leave of Absence, and thus defer the tuition paid, as well as eventual scholarships received, should it be granted.

If the student should not return after the approved Leave of Absence, no refund will be applied. Students are advised to contact their academic advisor to understand how a Leave of Absence will affect their degree progression, as well as AUR's Financial Aid Associate Director if they have financial aid (loans and/or scholarships).

Withdrawal from AUR

Students wishing to withdraw from the University should complete a Withdrawal Notification form available from the Registrar or notify the Registrar in writing. Degree seeking students who do not enroll during the following regular semester (Fall/Spring) and are not recorded on a leave of absence will be automatically considered as withdrawn. Students with federal aid who withdraw must complete Federal Loan Exit Counseling and will go into the 6-month grace period for loan repayment.

Graduation

The formal commencement ceremony is held at the end of the spring semester for degree candidates who have completed all graduation requirements that academic year. Degree candidates who have yet to complete a maximum of eight credits in the following Summer session may also apply to participate in the ceremony. There are three degree conferral dates per year (noted on transcripts and diplomas): in December, May and July or August. These three dates will constitute a graduating class. Candidates for degrees are to file a Graduation Request Form with the Office the Registrar before beginning their final semester of study. Applications for graduation will only be approved by the academic advisor after the advisor has completed a graduation audit. Students must pay the graduation fee by April 30th in order to participate in the ceremony and/or receive their diploma. Students graduating in the fall semester must pay the graduation fee by November 30th. Students may not file an application for graduation during the summer sessions. Diplomas and transcripts will be issued only to students in good financial standing with the University and only these students may participate in the commencement ceremony.

Graduation with General College Honors

A student who has completed 60 credits at The American University of Rome may be considered for graduation honors. Students with a cumulative GPA of 3.90 or higher will be graduated *Summa Cum Laude*. Students with a GPA of at least 3.75 but less than 3.90 will be graduated *Magna Cum Laude*. Students with a GPA of at least 3.50 but less than 3.75 will be graduated *Cum Laude*. The Valedictorian is the Bachelor's degree recipient with the highest cumulative grade point average based on the last 45 credits taken at AUR. The Student must have earned at least 60 credits at The American University of Rome and have all courses completed and reported for calculation of the final cumulative GPA by Commencement Day.

Graduation with Honors in the Major

On recommendation of Program Directors, students with at least 24 credits in the major may graduate with 'Honors in the Major'. Students are eligible for Honors in the Major if their GPA in the major is not less than 3.50 and their cumulative GPA is not less than 2.70 at the time of graduation.

Transcript Requests

An official transcript will be sent to any institution or institutions designated by the student on a Transcript Request form, which is available from the Registrar's Office (registrar@aur.edu) and from the AUR website www.aur.edu. Only requests bearing a student signature will be processed. Faxed requests are accepted. Students should allow three weeks for transcript processing. A fee will be charged for the service (see 'Tuition and Fees' on the website). Transcripts will not be issued to students who are not in good financial standing with the University.

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of a student's education records. In compliance with FERPA, The American University of Rome does not disclose personally identifiable information contained in student education records, except as authorized by law and/or those with written consent from the student. Further information can be found on our website.

Grievances and Student Complaint Form

It is not uncommon that students encounter problems during their university study. They may be academic or non-academic in nature. Students are encouraged to seek problem resolution as soon as possible. Problems, complaints and /or grievances may involve other students, staff, faculty or university policies or procedures. It is specifically recommended that in attempting to resolve a problem or dispute that the students be polite, be specific and follow the below guidelines. Students should first contact the parties or offices directly involved in a frank, respectful way. (Ex: fellow student, faculty or staff member etc.). The focus should be as specific as possible. Issues that are vague are by nature harder to resolve.

However, not all complaints can be resolved one on one. The American University of Rome has created an online process by which a student can file a formal complaint. Complaints placed in writing on this form will be directed to the person who can most appropriately address the complaint. Students will be contacted if additional information is needed and notified of the actions taken regarding the complaint. The Form is available on MyAUR.

UNDERGRADUATE DEGREES

All degrees conferred by The American University of Rome are approved by the State of Delaware Program of Education. A degree can only be conferred after the degree candidate has satisfied all University and program requirements. Individual program requirements are set out in the relevant section of this publication. The conferred degrees and University graduation requirements are described in this catalog.

Bachelor's Degrees

The Bachelor of Arts degrees and the Bachelor of Science degree require completion of at least 120 credit hours of coursework. At least 45 credit hours must be completed in residence at The American University of Rome and the final semester must be completed in residence. At least 50% of the credits used to satisfy the requirements for an academic major must be earned at The American University of Rome and at least fifteen credits must be in upper-level courses in the students major. GENERAL EDUCATION

Completion of the General Education program is a requirement for all bachelor's degrees, and makes use of courses throughout the AUR curriculum. Consistent with the mission of the University, the program develops important practical skills, addresses social issues of diversity, multiculturalism and ethics and draws on the rich resources of the city of Rome as a learning tool. Reflecting the mission of the institution, it strives to ensure that all students, regardless of major, will share a common dialogue which will prepare them to live and work across cultures.

The goals of The American University of Rome's General Education program are:

1. to develop and strengthen basic skills which will prepare students upon graduation for a modern working environment and which will be adaptable to a rapidly evolving economy.
2. to cultivate an awareness of, and sensitivity to, cultural diversity and its importance in personal and professional decision making.
3. to achieve a broad knowledge base, drawn from multiple disciplines, typical of an American Liberal Arts Education
4. to use Rome as a classroom and as an invaluable learning resource.
5. to encourage active and responsible citizenship through knowledge of the forces shaping the actions of individuals and societies and through the development of critical thinking.

The General Education program requirements are shared by all majors, though each major may also require particular Foundational General Education courses to satisfy major requirements.

A. FOUNDATIONAL SKILLS (17-35 credits)

AUR requires that all students achieve excellence in the following skills: Writing, Quantitative Reasoning, and Italian Language. These skills provide a basic knowledge which can be adapted to any academic discipline and will enable the individual to respond effectively to challenges both in the classroom and in his or her profession.

There are four elements to the Foundational Skills program: First Year Program, Writing Skills, Quantitative Reasoning, and Italian Language competence. These elements are satisfied by taking required courses that specifically address these skills. Foundational courses must be completed by the end of the sophomore year (within the first 60 credits).

1. First Year Program (0-3 credits)

AUR's First Year Program is a signature, one-semester course required of all first year students, irrespective of their choice of major. Communal learning—where all first-years students encounter the same questions, experiences, and texts—and the critical discussions that emerge from small seminars, make AUR's first year program distinctive.

FYS 101, Explorations in the Liberal Arts, is intellectually stimulating and personally transformative for students. Team-taught by several AUR's distinguished full-time faculty from a variety of disciplines. The interdisciplinary approach fosters a habit of mind that students will employ throughout their studies at AUR and into life beyond the classroom.

Transfer students with 30 or more transfer credits are exempted from this requirement.

FYS 101 Explorations in the Liberal Arts

Students who receive an F in FYS 101 have not achieved the satisfactory academic progress to proceed to more advanced work at the 200-level. These students will be restricted to 100-level courses in the semester following failure of FYS 101, and may be required to enroll in particular courses to reinforce essential skills and/or may have a restricted credit load.

2. Writing Skills (6-12 credits)

All students must take three courses in English or Writing which will ensure that all students can write grammatically correct English and express themselves clearly in language suited to the target audience. These skills are further developed in the Breadth of Knowledge section of the General Education requirements, and through discipline-specific upper-level courses within the major.

Students will be placed in a course appropriate to their writing ability via placement test or transfer credits before their first semester, and may need up to three semesters to complete the requirement.

ENG 100 Comprehensive Writing Fundamentals (6 credits)
or
ENG 101 Writing Fundamentals
or placement test results waiving ENG 101 requirement
and
ENG 102 Writing from Research
ENG 202 Writing from Theory

3. Quantitative Reasoning (3-6 credits)

All students should be capable of performing basic mathematical operations and applying them to analyze data within their fields of study. Students may select a course focusing on general mathematical principles or applied mathematics, although a specific course or courses may be required by the major.

MTH 102 Statistics I: Descriptive Statistics

Students planning majors in Business Administration, Travel and Tourism Management, and/or International Relations & Global Politics are also required to complete the course MTH 103.

4. Italian Language Competence (8-14 credits)

In order to appreciate the opportunities that Rome has to offer it is considered essential that all students have a basic competence in the Italian language and culture. All students must demonstrate a proficiency in Italian equivalent to one year of study or demonstrate that this level of competency has already been reached by achieving an appropriate score on the Italian placement examination.

Students may be exempted from all or part of the Italian language requirement by virtue of competency demonstrated through proficiency placement examinations. Such exemptions do not yield any credit unless the exemption is based on successful completion of college courses. Some majors require additional study in Italian for major requirements*; see individual program descriptions for more details.

ITL 101 Elementary Italian I (4 credits)
and
ITL 102 Elementary Italian II (4 credits)
or
ITL 103 Intensive Elementary Italian I and II (8 credits)

**Students majoring in Art History must complete ITL 200 or ITL 201 and ITL 202.*

B. BREADTH OF KNOWLEDGE (18 credits)

The goal of a Liberal Arts education is to enable students to be flexible and critical thinkers in a variety of subjects, and to apply interdisciplinary methodologies to solve problems in the classroom, in the workplace, and in their own lives. Towards this end, AUR students take courses in all of the disciplinary areas that contribute to the Liberal Arts: Creative Arts, Humanities, Natural Science, and Social Science. As well as introducing students to the varied approaches to knowledge, the courses included in these content areas integrate key skills essential to a successful career in college and in the workplace, such as Information Literacy, Oral Presentation, and Information Technology.

Breadth of Knowledge courses may also satisfy major or minor requirements, or serve as free electives. These courses may be completed at any time during the bachelor's degree, though students will derive greater benefit from the content and embedded skills by completing them within the first 90 credits.

1. Creative Arts (3 credits)

Creative Arts courses allow students to understand the creative process through practical engagement in the literary, performing, and visual arts. These courses emphasize the creation of art, to inspire students towards innovative thinking in all disciplines.

Students must complete one Creative Arts course.

Some Alternative Educational Experiences are credit-bearing (Internship, travel courses etc.) with graded assignments and/or required tasks, others may not be credit-bearing and will require a reflective process* (in the form of essay, artwork, blog, or other output) to complete the requirement. Possible Alternative Educational Experiences:

- Internship (INT 450)
- IA 360 Special Topics: Model UN
- Service Learning*
- Study Abroad
- Fieldwork/Practicum or other non-AUR credit-bearing or volunteer* program)

BACHELOR OF ARTS IN INTERNATIONAL RELATIONS AND GLOBAL POLITICS

120 credits

The Bachelor of Arts in International Relations and Global Politics provides the student with theoretical and practical skills required to become the next generation of leaders in different fields: policy, academia, think tanks, media, governmental or non-governmental organizations, multi-national corporations.

The Program includes core courses in the discipline coupled with area studies (e.g. Mediterranean and Middle East studies) and practice-oriented courses (e.g. Conflict Resolution and Negotiation). Students will be taking courses such as: International Relations, International Political Economy, Globalization, International Security, Ethics, Migration and Human Rights, as well as introductory political science courses (e.g. History, Sociology, Anthropology and Psychology).

Students have the possibility to participate in Field study trips mostly in Europe to bridge the theoretical learning with case study experience. The Fall-field study trips usually focus on cities hosting major International Institutions (e.g. the European Union in Brussels, the UN Agencies and the WTO in Geneva, the UN Agencies and OPEC in Vienna, and the OECD in Paris); Spring-field study trips focus on major issues (e.g. security, conflict, separatism –destinations being: Northern Ireland, Kosovo; The Basque Country; Montenegro, Catalonia). The 2019 J-term field study trip to Cyprus analyzes the de jure/de facto sovereignty issue of the country – i.e. between the Republic of Cyprus (a member of the EU) and the Turkish Republic of Northern Cyprus (Turkey). In January 2015 the field study trip to Turkey analyzed the role and power of Turkey as an emerging actor (both economically and politically) and its shifting alliances and interests (from NATO/EU to Eastern actors).

J-term field trips consider destinations such as Israel/Palestine (depending on security situation), and Russia. The IR Program traditionally organized a field study trip to Ghana.

Updated information regarding J-Term field study trip destinations can be found on the International Relations program's website: <https://www.aur.edu/international-relations/>.

Internship possibilities in Rome include: i) International Organizations in Rome (e.g. Food and Agricultural Organization; World Food Program; International Fund for Agricultural Development; NATO Defense College); ii) International Organizations in Europe (e.g. there is an agreement with the OECD in Paris for AUR students but there is also potential to take advantage of the EU institutions); iii) Non-Governmental Organization (e.g. Italian branches of Amnesty International and Save the Children); iv) Think Tanks (e.g. the Institute for International Affairs in Rome – ranked one of the best 20 Think Tanks in the world). Internships represent a great opportunity students should exploit, during or soon after their Bachelor degree in International Relations and Global Politics at AUR, to develop practical knowledge and skills relevant to their future career.

Students pursuing an AUR degree in International Relations and Global Politics are given the opportunity to supplement class lectures with International Conferences which address issues of current topical interest and give students opportunities to meet, listen to and question those who develop and implement international relations policy. Monthly Special guest seminars (e.g. ambassadors; politicians; academics) will complement course lectures and offer food for thought.

After having completed AUR's program in International Relations and Global Politics, students will:

- Possess a framework of knowledge in the fields of politics, history, economics international relations and relevant social sciences.

- Possess the knowledge of the theory and the analytical ability to put it into comparative and ethical context.
- Possess methodological skills relevant to data-gathering and communication of findings.

BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION**120 credits**

The Bachelor of Science in Business Administration (BSBA) curriculum provides a broad, professional foundation in all functional areas of business. Students follow a structured, organic core curriculum that introduces them to the various functions (marketing, finance, operations, accounting) of business, provides them with the quantitative tools (algebra, statistics, computer science, economics, decision science) necessary to understand and interpret data, and introduces them to prevailing management theories and paradigms as well as issues related to legal and ethical concerns in the business arena. Upper level courses incorporate case analyses, group projects and creative problem solving. All students take the capstone course, Strategic Management, in their last spring semester. This is a seminar-style, case-based application of the tools and concepts acquired in the first three years of study. At the same time they research and write their thesis, a strategic audit of a publicly traded transnational firm of their choice.

The program has an international focus with many opportunities for students to explore the social and cultural ramifications of operating in the global economy. The nature of the student body complements the international flavor of the program. AUR Business students represent more than 30 different countries. The program promotes a work ethic that prepares students for working in diverse multi-cultural environments. Interdisciplinary learning opportunities allow students to understand how different world views can affect the functioning of business. The BSBA program will enable students to:

- Select and apply appropriate quantitative and qualitative methodologies to analyze problems in a business context.
- Develop creative and innovative solutions to real-world problems.
- Develop leadership and organizational skills, working in teams toward common objectives.
- Apply a variety of communication methods that are used in the business world in order to articulate and resolve business problems.
- Situate business problems and appropriate solutions within their cultural and ethical contexts.

Students armed with the AUR Business degree are ready to begin their careers in business in the fields of marketing, finance, manufacturing, sales, advertising and management, and should be comfortable working in either American or international settings. The degree also provides a firm foundation for MBA graduate study.

The Bachelor of Science in Business Administration requires successful completion of 120 credits of which: General Education requirements (variable number of credits), 48-51 credits of major requirements and a number of free elective credits. BACHELOR OF SCIENCE IN TRAVEL AND TOURISM MANAGEMENT 120 credits

The Bachelor of Science in Travel and Tourism Management curriculum is designed to meet the needs of the travel and tourism industry, which ranks among the most exciting, dynamic, and fastest-growing sectors on the planet, by combining liberal arts courses, business courses, specialized courses in travel and tourism, and real-world experience.

A degree in Travel and Tourism Management will prepare students for entry level management positions as well as exciting entrepreneurial careers in this rapidly expanding global market, by equipping them with essential industry knowledge and leadership skills in tourism destination planning and development, innovation, management and marketing, accounting and finance, operations, as well as travel and tourism economics and global policy, both in and out of the classroom. Students will learn how to think and act strategically, solve problems individually and in teams, and apply acquired knowledge in practice.

TTM graduates will find themselves operating tours, working in travel and tourism bureaus, cultural heritage sites, working for airlines, hotels, cruises, resorts, restaurants, museums and galleries, media and communications organizations, or even establishing their own businesses. Preparation for such careers is achieved through a combination of theoretical and practical knowledge gained through classroom instruction, field trips, seminars with travel and tourism experts and leaders, and hands-on experience. In their junior year, students are given internship opportunities in a local Italian tourism environment.

There is no better place to study Travel and Tourism than Rome. The Eternal City is one of the world's most important tourist destinations due to its archaeological and artistic treasures, unique traditions, panoramic views, and magnificent villas. Studying travel and tourism in Rome affords ideal opportunities for unique fieldwork experiences. Cultural and heritage tourism as well as food tourism and religious tourism play key roles not only in Italy, but also in Europe, whose tourism product is built primarily on culture. Therefore, if they choose, TTM students can specialize in one of three concentrations: Food Tourism, Cultural & Heritage Tourism, and Religious Tourism.

Upon completion of the BS in Travel and Tourism Management students will be able to:

1. Identify place attributes that contribute to creating destination for visitors and describe how tourism generates economic impact locally, nationally, and internationally as well as analyze domestic and international trends in the travel and tourism industry.
2. Demonstrate an understanding of the foundations of tourism: the respect for the host culture and responsibility to preserve the unique values, traditions, and practices of that place, examining the positive and negative aspects that tourism can bring to a region or destination.
3. Develop creative and innovative solutions to real-world problems in the travel and tourism sector.
4. Communicate effectively and confidently demonstrating leadership and teamwork skills to achieve goals.
5. Use knowledge of best practices and multicultural perspectives to champion economic, environmental and cultural sustainability in the travel and tourism industry.

The Bachelor of Science in Travel and Tourism requires successful completion of 120 credits of which: General Education requirements (variable number of credits), 48-51 credits of major requirements and a number of free elective credits. ARC 255 – BRITISH MUSEUM AND ROMAN LONDON FIELD TRIP

This one credit weekend field trip to London will be focused on two major elements – the collections of the British Museum and the archaeology of Roman London and the River Thames. Students taking this course will gain an in-depth knowledge of the British Museum – its artifacts, its ethics and its controversies. Students will have the extremely rare opportunity to go behind the scenes at the Museum – visiting the Department of Greek and Roman Antiquities and going down into some of the secret storage areas of the Museum for a handling session and a visit to the atmospheric Sepulchral Basement, a repository of sculpture and architectural elements in a vaulted hall. We will also look at the Museum's policy on the display of human remains, concen-

trating on two bodies (Gebelein Man and Lindow Man), and at how modern scientific methods allow us to learn so much more about how they lived and died. Our exploration of the British Museum will include the Roman Britain Gallery and the Celts Gallery. This aspect of our study will be followed up by a visit to two of the Museum of London's galleries, London Before London and Roman London. In addition, this field trip will include two archaeological city walks: one focusing on Roman London (including the amphitheatre) and one on the archaeology of the River Thames, including its shipwrecks and the Thames Foreshore Project.

The introduction to each city will begin in the regional archaeological museum, examining the cultures, individuals, and events that created physical and social change within the community. Afternoon visits will focus on the medieval and Renaissance history of each city, with visits to historical monuments and sites of cultural importance. The course is an ideal appendix to any course dealing with the art, archaeology, or history of Rome, allowing students to apply their knowledge of the eternal city, and observe similarities and differences across time and space.

1 credit. Pre-requisites: A 100-level course in AH, ARC, or CLS, or permission of the instructor. Students arrange their own transportation to the sites, and accommodation in Florence and Bologna. Students are responsible for all entry fees.

ARC 293 – ARCHAEOLOGY PRACTICUM

This course is a practicum course that allows students to experience archaeological excavation first hand and to receive credit for it.

3 credit hours.

ARC 301 – ARCHAEOLOGY OF ROMAN IDENTITY

This upper-level on-site course examines the archaeological remains of Rome from the perspective of the different ethnic, cultural and social groups that populated the city and whose interaction created Roman identity. Roman society has often been presented as a uniform monoculture but developments in archaeological theory have allowed us to recognize diverse influences and to chart the evolving construction of Roman identity which underlay political power. What was considered ‘Roman’ was not static but changed according to period, class and setting and nearly always involved negative judgments of “others” who were perceived as displaying non-Roman characteristics.

3 credit hours. Pre-requisites: An Archaeology or Ancient History (including HST 201) or Classical Studies course or permission of the instructor.

ARC 302 – BEING HUMAN: THEORETICAL ISSUES IN ARCHAEOLOGY

This course examines the theoretical foundations which underpin all archaeological interpretation. We will examine how theory has changed the interpretation of human society over time, relating this both to developments in methodology (e.g. the introduction of scientific archaeology) and changes in contemporary society (e.g. post-colonial archaeology). The course will be organized in a broadly historiographical format analyzing prevailing theoretical concerns in different time periods in both the United States and Europe. Classes will follow a seminar format and students will be expected to come to class prepared to participate fully in the discussion.

3 credit hours. Pre-requisites: 200 level ARC or Ancient History course, or permission of the instructor.

ARC 308 – BODIES AND BURIALS

This is an upper level archaeology course which explores funerary archaeology including the symbolism of graves and the grave goods, the new technological and forensic advances in burial archaeology and cultural sensitivities concerning the study and excavation of human remains. The course will have a particular focus on the burials of the Etruscans and the Romans and will include field trips to visit archaeological sites, museums and archaeological laboratories. Students will be required to pay their own entry fees to museums and archaeological sites which will cost approximately Euro 50.

Please note: coursework will involve looking at images of burials and may involve handling human skeletal material. Students who are uncomfortable with either of these activities are advised not to take this course.

3 credit hours. Pre-requisites: A level 200 archaeology course or permission of the instructor. Students are responsible for all entry fees.

The course explores the relations between archaeological practice and domestic and foreign policies of states and International Organizations. In particular, the course focuses on the Euro-Mediterranean area to study the interactions between archaeology and politics, including issues such as the use of archaeology in international relations or in national and transnational identity building. These interactions are analyzed and correlated to the most influential and popular archaeological theories and their reception in society. Particular attention is given to the role of the media in disseminating archaeology to a public of non-specialists. The course enables students to develop a critical understanding of the complex interplay between archaeology, heritage, politics, and society.

3 credit hours. Pre-requisites: A lower-level archaeology or politics/international affairs course or permission of the instructor.

ARC 312 – FORENSIC GEO-ARCHAEOLOGY: MATERIALS AND METHODS

Geo-archaeology is the use of geoscience methodology to determine past events. Using these techniques in a legal context constitutes forensic geo-archaeology. This course introduces students to this specialization. The course will cover the methodology of investigating burials, and analyzing geo-scientific data. Procedural issues such as interaction with other forensics experts and the police and the impact of popular television shows on public perception will also be covered. Much of the course will be in the form of case studies of both solved and unsolved crimes. We will investigate cases from the facts that make up each side to the potential evidence useful to expose culprits. This course will be full of discussions about the cases and creative approaches to reaching the solutions. The approach is hands-on so students will have a chance to participate in the process, not simply study it.

3 credit hours. Pre-requisites: An introductory course in archaeological methodology and a level 200 archaeology course or permission of the instructor.

ARC 313 – GIS AND REMOTE SENSING IN THE ARCHAEOLOGICAL LANDSCAPE

Geographical Information Science and Remote Sensing techniques can be used to explore archaeological landscapes. The focus of this class will be primarily Classical cultures, especially ancient Greece and Rome. We will also incorporate cultures ranging from the European Bronze Age to the Renaissance, as well as the New World, to contrast and compare against the food analysis methodologies of Classical archaeology. We will learn how the study of the archaeological record, including faunal remains, botanical data, pottery analysis) as well as the application of biomolecular techniques can provide both indirect and direct evidence of food production, processing, consumption, economy, and culture of ancient societies. This 400-level class will require multiple field trips to archaeological sites, collections, and/or laboratories, and the completion and presentation of an original research project.

3 credit hours. Pre-requisites: A 300 level course in archaeology, classics or food studies or permission of the instructor.

Carlos III sought to legitimize his newly-formed Kingdom of Naples and the Two Sicilies (1734) by excavating the treasure trove of antiquity buried at Herculaneum and Pompeii. These efforts led to Neoclassicism, the late 18th-century's dominant cultural and intellectual trend. Through classroom lectures and on-site visits, this course will explore why and how the 'rediscovery' of ancient art triggered a new visual language that revolutionized subject, style, and content of European and American art, as well as the ways in which those transformations responded to the varying context-specific demands of particular times and locations. AH 324 – ART OF THE ROMANTIC IMAGINATION, 18TH AND 19TH CENTURY ROME

Neoclassicism is the artistic expression of the Enlightenment. It found in Rome a natural breeding ground, since the city was still imbued with memories of its Classical past. During this course we will see how Neoclassical art owed to its own time as much as to Antiquity, and how it reflected an enthusiasm for the ideals of the French Revolution, the majesty of the Napoleonic Imperial Age and the restoration of papal temporal rule. The second part of the course is devoted to Romanticism, a cultural movement born in Northern Europe with the development of nation-states. It too found fertile ground in Italy, which would itself be finally unified during the Risorgimento.

Art therefore became a vehicle for political propagandizing, with artists referring back to the Middle Ages as the last period of Italy's independence from foreign rule. Italy contributed once more to the development of European art through its "Macchiaioli" movement in painting, which anticipated Impressionism, and through the vast urbanistic programs to renovate and modernize Rome, now a capital again, in the closing years of the century.

3 credit hours. Pre-requisites: A 100-level Art History course. Students are responsible for all entry fees. An additional fee may be collected in the event of a required excursion.

Whereas the exposure of someone's likeness or private information might in some circumstances be self-inflicted and either intentional or unintentional, in many circumstances, it is the unwanted, intentional action of a third party seeking commercial gain without consent who is the culprit. This course studies in detail the concept and laws relating to "rights of privacy and rights of publicity." In particular, it delves into how these laws have evolved, how they affect and protect a private individual or public figure and most importantly, the role the First Amendment plays in protecting this often unwanted public exposure.

COM 306 – DIGITAL MEDIA AND SOCIETY

The course provides an overview of the impact of the advent of digital media on society and its cultural, social, economic and political implications. The increased power and speed of the Internet, in terms of its capacity to deliver and manipulate content, has enabled a new culture to emerge, the culture of convergence whereby individuals can deliver content and news with potentially the same capacity as traditional centralized information producers. Furthermore, the decentralized production leads to processes with rapid interactive feedbacks resulting in changes in the social behaviour when the information is consumed, repackaged and recombined with other sources. According to Manuel Castells and other scholars, digital communication networks are transforming society as a whole. The ‘network’ is becoming the predominant form of organization in advanced societies. This is evident in business, in patterns of work, in identity and community, in politics and social movements. But what exactly is a ‘Network Society’? And do we live in one?

The course will critically engage with these developments and introduce some of the key debates and theoretical approaches concerning interactive digital applications and tools. We will investigate the implications of social technologies and new models of content production, discussing issues of identity, community, production and consumption, as well as campaigning and activism.

We will compare the glamorous and auratic fame produced in cinema to television’s smaller scale, to the more “authentic” forms of celebrity found in popular music, and the expansive self-staging and obsessions with fame seen on the internet. We will consider how changes in media, particularly the development of television and the internet, have changed celebrity.

How can we identify different phases of Capitalism from its origins in the 18th century to now? Is Capitalism today different across countries (i.e. Europe, Africa, Asia, US)? The common currency and a common trade policy have not been met by a common foreign and security policy, or a common tax or immigration policy. The EU project is still in the making. The EU is a controversial political economic entity facing challenges as showed by the events in its recent past: the failed constitutionalization process; the eurozone debt crisis; Brexit; and the immigration crisis. IA 100 – INTRODUCTION TO INTERNATIONAL RELATIONS: HISTORY AND CONCEPTS

For many years, it was argued that IR was a branch of Political Science concerned with the ‘international’ rather than the ‘domestic’ sphere of political life. According to most descriptions, the ultimate raison d’être of IR was to explain why wars happened and how peace could be sustained over time. The main subjects were states, and the focus was on dynamics between states in an anarchic world. The modern study of IR incorporates, inter alia, many different actors, not just states (e.g. International Organizations, Non-Governmental Organizations, Multi-National Corporations, Social Movements, Civil Society); the study of the environment; the emergence of an international human rights regime; the reasons for state failure; the degree to which globalization as a phenomenon is altering the structure of international society; and, increasingly, the sources of disorder in an age of international terror; hegemony versus multipolarism. Students will be able to debate concepts like: balance of power, collective security, international legal arrangements, and globalization. This course is both an introduction to International Relations and a useful transition belt to those going on to study IR after their first year. The course fulfills information technology and oral presentation requirements.

3 credit hours.

IA 200 – INTERNATIONAL RELATIONS: THEORIES AND CASES

This course complements empirical knowledge acquired by students in the IA 100 course. It consists of in-depth study of main theories of international relations: realism, liberalism, Marxism, constructivism, feminism, and post-structuralism as well as using these theories to explain political concepts and look at specific cases in contemporary politics. Beyond application of theoretical frameworks to current affairs students will learn how to criticize existing theories and how political science concepts evolve and change due to changing international context.

3 credit hours. Pre-requisites: IA 100.

IA 201 – GLOBAL POLITICS

The changes in world politics over the last 15-20 years have been both sudden and dramatic. This course provides the students with diverse conceptual frameworks for understanding the current transformation of global politics. How basic political science concepts (like state, power, political movements, governance) need to be readdressed in light of these changes will be discussed. The current stage of globalization will be explored by historical comparison with earlier periods of political integration and disintegration, going back to Antiquity.

3 credit hours. Pre-requisites: IA 200.

IA 202 – INTERNATIONAL ORGANIZATIONS

This course explores the functioning of international organizations in today’s world. It analyses 1) the meaning, the origins and the actors of global governance and the reasons why it is increasingly needed; 2) the centerpiece of global governance: the United Nations; and 3) the evolution, the role, the purposes and the impact of regional and sub-regional organizations active in Europe, Africa, the Americas, Asia and in the Middle East. The course will also address a number of cross-cutting issues and challenges whose resolution require a global approach, and will, finally, discuss the role played by IOs in securing international peace and security.

3 credit hours. Pre-requisites: A lower-level Political Science course or permission of the instructor.

IA 203 – U.S. AND EUROPE SINCE 1945

This course examines U.S. influence in the reconstruction of Europe after WWII, the Marshall Plan and the development of the idea of European integration, the U.S. as a world power with a permanent military presence in Europe, and the birth and evolution of NATO. Students will also analyze tension over decolonization in Suez, ‘the Special Relationship’ between the U.S. and Britain, tension with France and harmony with Germany, the end of the Cold War, the new EU and the new NATO. Evolution of Transatlantic relations after September 11 and during and after the second war Gulf War will also be examined.

3 credit hours. Pre-requisites: Lower level POL, IA, HST or permission of the instructor.

IA 301 – COMPARATIVE FOREIGN POLICY

The course examines the complex interplay of multiple factors that influence foreign policy choices in different countries. It also looks at leaders’ personality and their perceptions, domestic and international constraints of state actors and the balance of power in the international arena. To gain insight into how individuals ponder options and take decisions, how states engage with others and how the international system impacts on the interaction between states, three levels of analysis will be used: the individual, the state and the international system levels of analysis. This theoretical framework will then be applied to a collection of case studies allowing for a comparative analysis of countries’ foreign policies.

3 credit hours. Pre-requisites: A lower-level Political Science course or permission of the instructor.

IA 302 – ISLAM AND POLITICS

Scholars, government analysts and terrorism experts have examined the relationship between Is-

lam and politics for years. Although this field of study is not recent, it became both dominant and essential since 9/11. This course intends to provide a comprehensive, analytical, and in-depth examination of political Islam in an increasingly globalizing world. The purpose is thus to show the interaction of Islam and politics and the multiple and diverse roles of Islamic movements, as well as issues of: i) authoritarianism; ii) democratization; iii) religious extremism; and iv) terrorism. The first part of the course will give a general overview; the second part of the course will focus on case studies at the regional and global level.

3 credit hours. Pre-requisites: A lower-level politics or international affairs course..

IA 303 – THE US, THE EU AND CHINA: WHO IS GOING TO LEAD?

This 3-credit course is an advanced course of International Relations where students will learn how to apply Theories of International Relations to critically analyze contemporary global affairs between the US, the EU and China. Will these global actors try to use increasingly power politics or institutional cooperation? Will they be able to write together the rules of the Game? The US, the EU and China might recur to different policies and strategies depending on the circumstances and prevailing ideologies. Accordingly, the future of International Relations can be mapped in four scenarios: 1. Each global power tries to undermine the others, i.e. Everyone goes alone = mistrust and anarchy; 2. A coalition between the western powers, i.e. The US and the EU against China = instability; 3. The China Age, i.e. threat for Western powers; 4. The construction of an effective multi-polar world, i.e. The US, The EU and China = equilibrium.

3 credit hours. Pre-requisites: Junior standing; IA 200 or equivalent.

IA 305 – INTERNATIONAL RELATIONS OF EAST ASIA

This course examines the nature of international relations in East Asia. Particular attention will be devoted to the positions occupied by Japan and China in the context of the Cold War, as well as to their interactions both with the other regional actors, the two Superpowers and Europe. The analysis of the factors which were generated during the phase of bipolarism will facilitate the identification of continuity and discontinuity lines in the light of globalization.

Topics will include: (1) the historical development of international relations in East Asia since the mid 19th century, (2) WWII and its legacy, (3) domestic institutions and foreign policy outcomes, (4) regional security issues, (5) regional economic relations, and (6) the implications of these issues for the United States.

3 credit hours. Pre-requisites: Junior or senior standing or permission of the instructor.

IA 307– INTERNATIONAL HUMAN RIGHTS

A growing number of international conventions impose human rights obligations on States parties. They also assign to the so-called treaty bodies, as well as to regional courts, the task of ensuring compliance with human rights standards. As of 2006, the UN Human Rights Council monitors respect for human rights by member States. Since the 1990s, the human rights regime has been enriched by its encounter with criminal justice while non-state actors, such as NGOs, play an increasingly relevant role. The course, through an illustration of the general framework as well as an analysis of selected issues, is aimed at understanding how human rights have become a part

of the legal system of the international community.

3 credit hours. Pre-requisites: IA 100 or permission of the instructor.

IA 310 - POLITICAL RISK ANALYSIS

Uncertainty and risk are constant features in international relations, yet their relevance as analytical lenses is often overlooked. After outlining the main methodological and epistemological challenges that must be faced when considering the role of uncertainty and risk in a fast-changing, globalized environment, this course explores key issues in international political and economic relations. Topics covered include the analysis of the most widely used techniques in economic and political forecasting (e.g. statistical extrapolation, game theoretical approaches, Delphi techniques, prediction markets, expert judgment), as well as the role of the digital revolution both as a catalyzer for new 'cyber' risks and as a generator of new tools for the collection and analysis of intelligence (e.g. Big data and the 'internet of things'). Students are encouraged to engage in critical reasoning using theory applied to a plethora of case studies on unexpected, 'black swan' political and economic developments – such as the fall of the Berlin Wall, the global financial crises, and the Arab Uprisings.

3 credit hours. Pre-requisites: 200 level POL, IA or ECo course or permission of the instructor.

IA347 - FRANCE: ALIGNING/DIS-ALIGNING WITH POPULIST TENDENCIES IN THE EU?

The 2017 elections in France have brought to light the deep social divides within French society and illustrate a developing trend towards nationalism in global politics. As one of the founding fathers of the process of European unification, France has historically acted as a strong driving of deeper EU integration at the economic and political level. Challenges in the mature western democracies – e.g. 2008 economic and financial crisis, 2009 Eurozone debt crisis, the Paris attacks in 2015, the immigration crisis, Brexit (2016), and the US elections (2017) – have caused an unprecedented rise in conservative ideologies that question the legitimacy of the EU. French people's enthusiasm and support for the project of the European Union have tarnished. The EU has two main roads in front of it: 1) get smaller and deepen integration; 2) slowly break up. The road of the original founding members (i.e. France as one of them) will be a key turning point. Either way, certainly France's domestic politics and the increasing role of nationalist sentiment will have a fundamental role in the future of the EU.

1 credit. Pre-requisites: IA100 or POL101 or permission of the instructor. Students will pay a fee to cover the cost of the field-trip.

IA 348 - BERLIN: NATIONAL VS EUROPEAN VISION

Germany's economic and political relevance in the European Union (EU) gradually increased over time, especially compared to the early stages of the European Economic Community. The unification process of East and West Germany, the weight Germany's economy (both in absolute terms and compared to the other single members), and the fact that Germany is the most populous EU country, all contributed to a tremendous increase of the role of the country in the EU over time. Germany is the de facto hegemon within the EU, but a reluctant hegemon. Germany is in a unique position within the EU: stuck between EU Member States who expect Germany to be the country imposing the respect of the Treaties (e.g. monetary policy), and EU Member States who oppose Germany's tight rule-based approach. The latter argue that a greater political vision and understanding of the project that has promoted peace and unity in the continent since the end of WWII needs to be adopted for the EU to survive, while the former think that there cannot be any EU without a strict rule-based system to guard the enforcement of the Treaties with so many member states. Germany on its part might seem more focused and concerned on its own national interests. *1 credit. Pre-requisites: IA100 or POL101 or permission of the instructor. Students will pay a fee to cover the cost of the field-trip.*

IA 349– BREXIT: THE UK AND THE EU AFTER THE VOTE

The United Kingdom (UK) voted to exit the European Union (EU). Brexit had an impact on the global economy, and the sterling went down to its lowest level since 1985 vis-a-vis the US dollar. Brexit will strengthen the appeal of national right wing parties across Europe, which are already calling for other Referenda to be held (e.g. France). Brexit is yet another crisis for the EU, after the most recent ones: Greece, migrants, Libya, Syria, and Russia.

It avoided the worst violence of the break up of Yugoslavia in the 1990s but suffered from the economic and political instability and the growth of criminality that the wars provoked. It now seeks greater integration with the EU. It is also a small country so that all of these issues can be addressed in a short field trip course.

IA 359 – GREECE AND THE EU

This course examines the origin and the impact of the Greek financial crisis, both on the country itself and on the EU. On top of that, the Greek crisis has challenged the EU project as such, the principles and objectives of the members of the monetary Union and the rationale under which the project was built. Understanding the causes of the crisis is one of the first goals of the field trip. What are the roots of the crisis: domestic; EU level; international level; or structural? Tracing the causes of the Greek crisis and the most relevant level of analysis should help to come up with possible solutions. The course consists of introductory and concluding lectures, and a weekend field trip to meet with representatives of the main political parties of Greece.

The course provides an analysis of the emergence and development of the European Union from the aftermath of World War II to the present. The forces, the events, and the individuals that have shaped the European Union (EU) up to now will be presented together with the strength and weaknesses of this project. The EU is the most interesting political entity in history beyond the nation state trying to reconcile national and supranational interests and values – EU's motto is: "Unity in diversity", in *varietate concordia*. The common currency and a common trade policy have not been met by a common foreign and security policy, or a common tax or immigration policy. The EU project is still in the making. While stressing a comparative perspective, regional variations will be addressed throughout the course. Rather than proposing 'the Mediterranean' as an essential unit, it will be discussed how different discourses (political and cultural) are part of the creation of the Mediterranean as an 'area'. POL 321 – TERRORISM AND POLITICAL VIOLENCE

Political violence has always been present. Sometimes it is expressed as a formal war between clearly defined combatants for clearly defined aims; more usually the aims are mixed and the methods and targets even more muddled. It is essential to understand these distinctions, moral, legal, political and practical in order to understand wider political practices both between nation states and within them. Since 1945, there have been almost no "wars" in the traditional sense of the word and very few which approximate to wars between states. Future wars are more likely to be between ill-defined protagonists and since 11 September 2001 and the US's "war on terrorism", it has become even more important to understand the roots, aims, morals, ethics and techniques of political terrorism and all forms of political violence.

PSY 383 – SPECIAL TOPICS: MADNESS AT THE MOVIES

What is it to be “mad”? In their tales of horror, suspense, comedy, or drama movies have occasionally given us vivid portraits of madness, of extreme mental illness. How close to reality do these films come; how accurate is their picture of madness? What can we learn about madness from the movies? In this course we will study closely the various forms of madness portrayed: Obsessions, Depression, Suicide, Perversions, Psychosis—as Zorba called it, “The Whole Catastrophe!” We will also look at how psychiatry has been portrayed in the movies—from magical healer to crazed, cross-dressing killer. And we will also explore how close movie therapy comes to the real thing. There are many Italian films that demonstrate aspects of madness and we will feature these in the course. Using the films as our text, we will first look at what it is to be “mad”, we will define mental illness, and then systematically look for examples of specific diagnoses and syndromes in the movies. Each film will add to the understanding of mental illness, as the student learns to read between the lines of the movie portrayals. We will end with a look at the image of psychiatrists and therapy in the movies. The course should be of interest to students of film, of psychology, and of the human condition.

Is Christianity the primary causal factor?; 3) How has the Greek tradition of erotic enquiry served modern theorists of sexuality, from Freud to Foucault? 4) What happens to our enquiry if we shift our attention from sexuality to desire?
